

Dear Mr Lilienbeim

Thanks for coming and telling me about The Holocaust and of you how you survived it and how people were treated and how you needed to fight for stuff and I wish that The Holocaust did not happen so you would of lived a nice and sweat life and what I did not like was when you told us about how you were treated and how much food you ate but that was not important The most important part was finding your wife and being with her and being alive and surviving The Holocaust.

Your friend

Santiago
