Dear Mr. and Mrs. Rishikof,

Thank you for contributing the video tape "Dark Lullabies", the newspaper clippings and the educational catalog which Lilyan Berger presented to the Holocaust Memorial Center.

On Thursday, January 22, the entire staff and a few volunteers viewed the video. We were moved by its contents and found that it was unlike any other film we had ever seen on the subject.

We feel this video is a valuable addition to our Center and will be an extremely important resource for use in our educational programs. For example, we are already planning to show it in our Lecture Series which trains volunteer interviewers to take testimony from Survivors, their Protectors and Liberators. On Saturday evening, January 24, we shared "Dark Lullabies" with our Children of Survivors group who were stirred by its strong impact. The video is now on loan to a graduate student group who wish to integrate it with in their research.

Thank you for this meaningful contribution. We will continue to make use of it.

Sincerely,

Patricia A. Lutwack, Ph.D.
Director of Documentation
and Research
