

Dear Henry and Lydia,

Soon after we talked to you, we saw the movie. It was a most shattering experience. Irene looked lovely and when she started to cry, we cried with her.

For most people it may not be as devastating as it is for close friends. We left the theatre shaken beyond description.

I wished the film ^{had} received more publicity so that Jews and Gentiles alike would see it. Irene gets my "Oscar" and a big hug. You both looked great, just like Fred and Ginger.

We are doing fine, going to Texas for the holidays. Best regards to all of you.

Jerry
